Caro's Creative Crew uses ProAiir Hybrid Body Paint

ProAiir Hybrid

ProAiir Hybrid Makeup from ShowOffs Body Art is a high quality, hybrid airbrush makeup with highly durable, long lasting, alcohol-based formula ideal for face and body art. ProAiir Hybrid formula is smudge proof and waterproof and can withstand extreme conditions. Applied correctly, designs can last up to 3 days. Because of its smudge proof formula, it sets instantly and won't rub off or damage clothing.

ProAiir Hybrid works best when applied to clean, oil-free skin. Wipe skin with wipes, never apply makeup foundation or sun screen to skin before applying ProAiir. That creates a barrier over the clean skin. Applying to SKIN is best!

Safety Info

ProAiir Hybrid Makeup is made in the USA, using FDA and EU compliant cosmetic grade alcohol and pigments. ProAiir Hybrid is vegan and not tested on animals. ProAiir Hybrid Makeup is hypoallergenic and certified skin safe. Hybrid makeup is perfectly safe to use on children, when applied correctly. ProAiir hybrid has a pleasing scent, and is not recommended for use if customer is allergic to fragrance. ProAiir makeup is free of dibutyle phthalates, phthalates, formaldehyde, lead or any other toxic ingredient. Not recommended on skin with wounds, sunburns or sores.

How Do I Remove ProAiir Hybrid Makeup?

DO NOT use water first when removing Hybrid makeup. Rub liquid soap to lather or rub using baby oil or makeup remover to remove makeup and then wipe clean or follow up with water. For removal of body painting, first apply liquid soap or body gel to lather and then step into shower and rinse off makeup, optionally scrubbing gently using a scrunchy, wash cloth or loofa as needed. If there is some paint being stubborn, rubbing alcohol can be applied for removal, being extremely careful if the paint is on the face.
